Regulatory or Spar Buoys

All Buoys Meet Coast Guard and Inland Waterway Specifications and Regulations.

- Roto buoy's are manufactured from UV stabilized polyethylene plastic.
- High impact resistance, even in sub-zero temperatures.
- Buoys are unaffected by chemicals, solvents, and fuel.
- Guaranteed buoyancy. (Injected with 2 lb. density polyurethane foam that exceeds the stringent requirements set by the United States Coast Guard.)
- Reflective symbols and legends may be added to fit your requirements.
- Buoys have a redesigned base to allow quick and easy attachment to a clevis or cable.
- All buoys are equipped with an easily accessible recessed swivel eye.

- Regulatory markings are consistently applied to maintain same daymark area on each style of buoy.
- Buoys stand flat on a level surface to save storage space.

Heavy Duty Polyethylene Spar Buoy Specifications:

Item#	Description	Height (in.)	Diameter (in.)	Daymark		Tackle Weight (lbs.)
				Height (in.)	Weight (lbs.)	
45171	RP5000	73	5	32	28	5
