

Rotonics is the solution:

"I am the plant Superintendent for a Bakery. A few months ago we purchased several special order ingredient tubs from your fine company. Through the process I worked with your Sales Engineer to put together the "perfect tub" for our operation. I have to say that you did an excellent job of making the goal a reality! Rotonics did all the leg work by seeking to understand our needs and limitations and ultimately arriving at a workable solution. We ended up with a mold for the tub, as well as an end result that meets and exceeds our expectations. I wanted to let you know that because of your outstanding efforts our company feels they have a partner in Rotonics. Additionally, after several months of using the tubs under fairly difficult abuse and heavy demands; I have to say that I am impressed and would recommend your products and your company to anyone who has a need for molded plastic. Thank you again for building a great team of professionals and for producing a quality product that we can rely on to carry our own standard of excellence!"
