- FDA-approved High Density Linear Polyethylene
- Manufactured at a heavy weight, which provides longer service life, especially in frequent pump applications.
- Unaffected by chemicals and sewer gas
- Pipe struts from the floor to the ceiling to keep the floor flat.
- Ribbed design will support soil loads of 500 lbs/ft<sup>2</sup>, often seen at 3' burial depth.
- Low profile tank design minimizes excavation depth.
- Optional 9" stackable risers assist inspectors for pumping and real estate transactions.
- RMI's Septic Tanks can treat wastewater better than most sewage treatment plants at a fraction of the cost.
- Large 20" entry/view port with man way risers and a sealed lid with gasket are included.
